

Nosebag Recipe:

When a horse is to be away from his quarters or grazing area, a thoughtful owner provides a bag of feed to hang conveniently on his bridle. Girl Scouts can carry their own personal "nosebag" made of a red bandana or a paper bag.

What goes in a nosebag lunch?

Something munchy, something crunchy, something sweet, something juicy

Everything tastes good outdoors, but not everything packs well. Remember to pack:

Nothing squishy, nothing squashy, nothing sticky, nothing soggy

Apple Boats (serves 16)

- 4 green apples (Granny Smith are great)
- 1 cup chunk style peanut butter
- 1/2 cup crisped rice cereal
- 1/4 cup raisins
- 4 squares cheddar cheese (NOT process cheese slices)

Cut the apples into quarters and remove core leaving sections hollow for filling. Mix peanut butter, cereal, and raisins. Spoon mixture evenly into apple "boats". Cut each cheese slice in half diagonally twice to form 4 triangles. Put one cheese triangle on each "boat" as its sail.

Friendship Salad

Each person brings a piece of fruit. Dice fruit and mix with a little honey and a dash of lemon. Add chopped nuts or mini marshmallows if desired.
