

Across the Generations

Council-Wide Service Project

Our oldest generations are experiencing the highest amount of health issues and anxiety during this pandemic. Nursing homes, assisted living facilities and hospitals have stopped visitation leaving many of these treasured people lonely and scared. Girl Scouts of Gulfcoast Florida asks for your help in cheering them up and letting them know that they are appreciated, and that they are not alone.

With your Girl Scouts sisters virtually, or with your family members at home, write a letter, make a card or draw a picture and mail it to the nursing home, assisted living facility or hospital of your choosing. Take a picture of your masterpiece and post it on our council Instagram page ([#girlscoutsgulfcoast](#)), using the hashtag [#AcrossTheGenerations](#) to honor them, and comment with the name of the facility you have mailed it to. All who post will receive an Across the Generations Honor Patch for helping to spread joy.”
